

We are a Manufacturer from innovative Digital Systems in the Vehicle Industries, we are happy and present you our newest System for Mileagecorr. the "Tachmaster T3", with more than 3190 sell items we are the Top Manufacturer in Tools for the Odometers and Digital Multitool as Interfacesystems. The Tachmaster T3 System is integrated with new Technologie and Inteligent Electronic, Worldwide with a special 5 Digital Line Microprocessor. With our Tachmaster T3 System you can Digital in more than **810 Cars, Motorcycles or Trucks** Odometer read/write/programming Mileagecorr. But this is not all, if you need you can use the T3 for professional Vehiclediagnosis, Airbagscanner, DTC Failurecode Delete and more.... This professional system is Build Modular with Machines in Mico SMD 0402 Technologies, integrated with special 5 Digital Way Microprocessor, this inteligent special technologie can read/write/programming in 6 Programming Ways the Odomet... in Vehicles. Worldwide is this the only Interfacesystem with all technologies in one incl. the New Microprossortechologie for the New Cars! So you can Digital programming the Mileagecorr. in Vehicles via OBD-II Diagnosisport in Cars, via Adapter Mercedes and BMW Car in older and New Cars (Adaptercable is incl. in Set), VW Golf with 2x2 Adapter (include), If this way not possible for you Car, Motorcycle or Truck we have integrated a special way, The Directprogramming! In this way you Programming the Eeprom IC im Odometer direct, so you can connect the SMD Testclip direct with the Eeprom IC in Odometer, start our X13 Programmer (X13 is include im Set) and the T3 system and programming your Mileagecorr. And the Best you must not desoldering and after programming soldering the IC Eeprom im Odometer (different from Car to Car). A New Methode from the T3 is the programmingway in Vehicles with Microprocessors. (Worldwide in New Cars the Manufacturers integrated Microprocessors, in future will a great Number of Cars integrated with this). With our T3 Tachomaster you can very easy programming the Vehicles with Microprocessors and the Best you must 100% the Microprocessors not De/Soldering after Pogramming. In this Programmingway connect easy the Microprocessor in your Odometer with our new Microprocessor-Testclips, use our MCX1 Module and start this Programmingway, the T3 Unit will automatic generate Data and programming the Mileagecorr. in you Car! (you must not the Microprocessors Soldering or Desoldering) This is a Newest programmingway you find this only in our T3 System worldwide!

In over 10 Years Experience we have created this final Product the T3 Tachomaster, the System is manufactured as Modular and Stand Alone system, with this solution you can programming in Future next generation of Cars with new Processoren or other IC and can use for other Multiapplication in Vehicles. With The Modulartechologie you can combine the T3 system with Hardwaremodules and make so Upgrades to a great Machine for a very great number of Cars and not only for the Mileagecorr.. The integrated Softwareupdate if you need can update The system with newest Information or you can buy new Softwaremodulen and other software this solution make the T3 to a prefect Tool. This Service is only in Very expensives systems include (Digaconsult etc.), worldwide only our T3 Tachomaster is with this Service include as Interface! In Our Onlineshop and Homepage you can see the newest Informations.
Our BIG-SYSTEMS Engineering Team work everytime on new Modules and solutions for the T3 this guarantee a great working and powerfull Tool in the Vehicletechnologie!

You do not need Prgrammingexperience for working with this system, only what you need is a older Laptop/ Notebook (best 200Mhz), Win98 Operate System, Rs232 Com Port and LPT port. In you first programming we help you with our support and Informations, a Instruction Manual is integrated in English and Germany (other Language in development)

Use The T3 Tachomaster as Multitool replace so 11 Instruments!

If you need you can use The T3 Tachomaster as Multitool for Diagnosis, Airbagreset, Airbagscan, Airbagdiagnostic, Airbag Clear Crash Data, BMW - Digital Chiptunning Engine (incl. a great number of original Chiptunningfiles and Editor) make so +35% Enginepower, Car-Radioprogramming, Real Time Speedmeter, Immobilizer, Key Transponder prog and more.

Vehicle Diagnosis:

The Systems is compatible with very powerfull professional Diagnosis Software so you make with this Diagnosis, Clear Failurecodes and Serviceinterval and more, T3 is compatible with : Carsoft 6.14 for BMW Vehicles, Carsoft 7.04 for Mercedes Vehicles, VAG-COM for Vw,Audi,Seat,Skoda Vehicles, BMW EIDABAS / INPA this software is Original from BMW Manufacturer!, Audi Tools special for Audi open more Function as normal VAG COM, Renault DDT for Renault, RSM, KJA, Nissan, Dacia Vehicles, Volvo Fault Code for Volvo Vehicles, OPeI tech2 and Opel Ab Com for great number of Opel Cars. Wit this software make all Repairs, Service and Failure Clear Codes and more Self!

BMW-Chiptunning:

If you have a BMW Vehicle so you can make Digital Chiptunning, only what you need ist The T3 Set, connect the BMW Adapter or OBD-II Adapter and Tranfer the Original Chiptunningdata in your BMW ECU Module, you need not a Screwdriver or other tools. Maker your Engine so with more +35 & Horse Power. If you need a normal Function you can easy later Transfer the Original Datat. A number of originla Chiptunningfiles is include and a Editor make self made the Chiptunningfiles a Great Function !!!

Airbag:

Maybe you need make a Diagnosis on Airbags, or after Damage Reseting the Airbag System in your Car or you will Clear the Crash Data Codes in Airbag Module, with the T3 Tachomaster is this a very easy, The Software work with a great Number of Modern Airbagmodules Bosch, Siemens and more, Connect and Run the Software and work in Airbags!

Immobilizer:

A very great function is the immobilizer for a number of cars VAG and different, hier a situation " your odometer in your Car is damaged or you will Change this, the normal way is you go in Car Part shop and buy a new Odometer and Change this " but after the power your Car the New Odometer will not goes in Function why???? So in this Situation use our T3, our system will make in your Car a Immo and will Activate your New odometer, so after this will work!!!! This immo you need for great number of othpart in your Car and this function 1 Modul is INLCUDE!

Other Functions:

We have a great number of other Functions: Radioprogramming, Transponder, Navisys, Immobilizer, more Diagnosis and very more this you can buy and update from our Homepage!

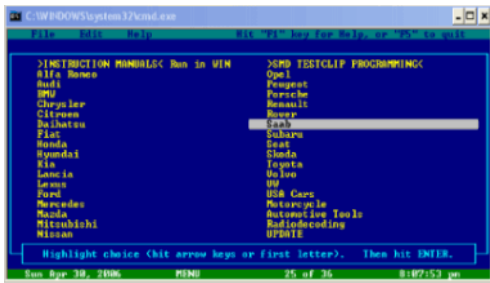

See our compatible Vehicle List in this Page Down

TECHNICAL DATA AND HIGHLIGHTS T3 SYSTEM

Read/write/programming Mileagecorr in more than 810 Vehicle (Car, Truck, Motorcycles) Odometer Programmingway via OBD-II, via Adapter MB, VW, BMW, via SMD / IC Testclip and Microprocessorclips Programming Eeproms, SMD Eeproms, Exotic Eeproms and Microprocessor in all Programmingoptions!
Vehiclediagnosis: VW, Audi, Skoda Oktavia, BMW, Mercedes, Renault, Nissan, Dacia, Rsm, Opel and Volvo... and more
Diagnosissoftware Compatible! Carsoft CS7.4, Carsoft 6.14, BMW EDIABAS, Volvo Fault Code, Opel Tech2, DDT2000, VAG-COM...
Clear Airbag Crash Datas, Reset Airbags and Airbagscanner.
BMW Digital Chiptuning - incl. original Tuningfiles +35% BMW Enginepower.
Speedometer Function in Real Time - Speed control
Modularer Construction - Combinue with Hardwaremodulen (Upgrade & buy)
Immobilizer system this will Login in your ECU for Change, add and Activate new Parts in your Car
Automatic Software (Update & buy)
Integrate Pin Orientation Software - Display in all Cars the Pins and K / L Lines
Include X13 Programmer and incl. Adaptercables for Mercedes, BMW, VW & OBD-II

Programming in more than 810 Vehicles.

BASISOFTWARE T3 V4.0

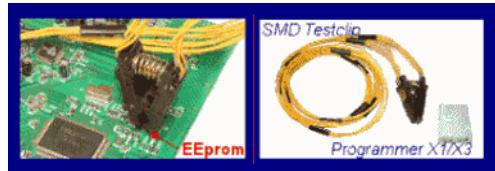

This is the Basesoftware V3.0 Beta you start this Modul in Win95/98 or Blank Dos Modus, different from Car to Car and what for a programming you use Adaptable, OBD-II, SMD Testclip or Microprocessorprogramming you run this software in Win or Dos Modus. Software will automatic switch in the right Operate Systeme and is possible for Dos or Windows. The Adapter for MB, VW, MB and the X13 Programmer Modul is for this work include. This Special software is programming from our Engineer team only for the T3 system and have a automatic Update system for the technologie use in the next generations of Cars

The Programinways in Odometer / Mileagecorr....

MICROPROCESSOR PROGRAMING - NEW TECHNOLOGY!

This is the Newest Programmingway for New Cars with integrated Microprocessors, a very powerful way for this programming is in the T3 tachometer Integrated. You can with the Modulartechnologie this combine with the MCX1 Modul and the Microprocessor Clips. (More in our Onlineshop) Hier you can see the Odometer and the Microprocessor we Programming the Processor with our MCX1 and connect this with our Microprocessor clips, we connect the micro clips on the right pins on the Processor and with our MCX1 modul, then we start the T3 Tachometer and the MCX1 Modulsoftware, generate so the Datafile and reprogramming the Processor (make before a secret Copy of the Processor) and programming the Processor, finish! We must not Desoldering and soldering the Processor in this Programmingway!

PROGRAMMING SMD EEprom with - SMD TESTCLIP & X13 Modul

Hier you see the Directprogramming way, in this very easy way we have replace the Odometer and have connect the SMD Eprom with our SMD-Testclip (not include) and with the include in Set X13 programmer, we start the X13 Software and Run the T3, generate so the Data and reprogramming the Odometer Eprom with the new Data, Finish! You must not De/Soldering the Eprom this connect with the SMD Testclip (different from Car to Car) This Programmingway is use in 85% all Cars at this Time and is very easy for use.

The Programmingtime is under 2 Minutes! This Working Great and can use in great Number in Vehicles in Cars, Trucks, Motorcycles and all what have a Speedometer Eprom! The X13 Programmer is include in this Auction Set!

PROGRAMING DIL EEprom with - IC TESTCLIP & X13 Modul

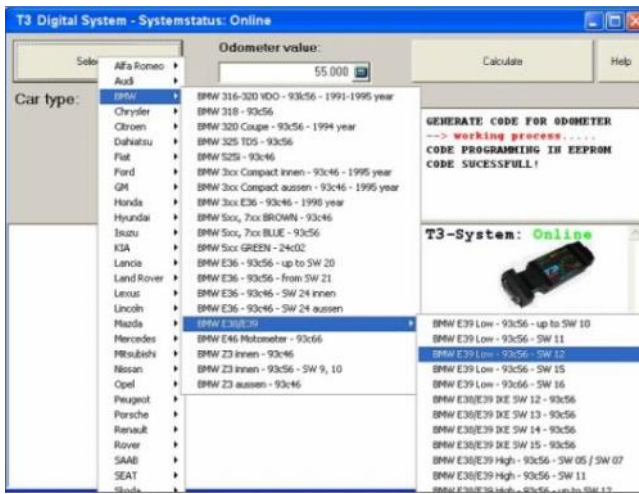

This Programmingway is our oldest Method, the DIL Eprom in Odometer / Speedometer is the first generation in Vehicles and is greater as the SMD Eprom, hier you can see we connect this DIL Eprom with our IC testclip (a never IC testclip is existant) and connect this with our X13 programmer Run and Start the X13 Software modul and the T3, generate the Datafile and Reprogramming so the DIL Eprom. You must not De/Soldering the Eprom (different from Car to Car) This is a older Method but from time to time must use in Cars!

PROGRAMMIENG WITH - OBD II & MB,VW, BMW ADAPTER (include)

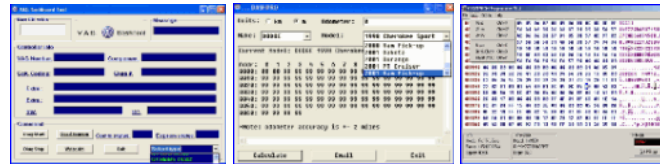

In our Set to all Adaptable include, this Adaptable you can use in Mercedes, BMW, and VW Vehicles and the OBD-II Adapter in a great number of other Cars. The Programmingways of this Method is very easy from Vehicle to Vehicle we start the Basesoftware or windowsoftware Special module, connect the Right Adapter and Reprogramming the Vehicle with new Mileagecorr. A Universalpin Adapter (not include) you can Buy and use in Cars for where not exists Adapters and what is possible for programming with Diagnosis port. A Integrated POS Software will Display the Right Pin in the Diagnostoport from all Cars, so you can connect right Pins with this Universal Cabke and start the Programming! A Universalcabke you can use for The Diagnosis in Volvo, Opel or other Cars. See more in our Onlineshop!

Auction Set Include: TACHOMASTER T3 STARTSET

ODOMETER MODUL (1 from 8 possible Softwaremodules)

Hier you see 1 from 8 possible Softwaremodules for Mileagecorr., this Modul will used from our T3 Tachometer and is very powerful in SMD Testclip Directprogramming, Microprocessorprogramming and DIL Eprom Programming Method. In the First Revision Update1 is this Modul include with great Number more than 550 Cars in Set. You can Update this Modul with Update2 and have so more than 810 Cars. This Modul will generate the Codes with the T3 and reprogramming the IC in Odometer / Speedometer. Include in this Set is a great number of Automatic Odometer softwaremodules this Modul work direct with our Modules and Adaptable and make perfect reprogramming IC via OBD-II and other Method. This modul you can start in Standalone and Modular Modus in Windows direct great working and very powerful Software!

Vehicle Diagnosis- ISO 9141-2 KK/L - BMW,MB,VW,AUDI,VOLVO....

The Systems is compatible with very powerful professional Diagnosis Software so you make with this Diagnosis on great number of Vehicles, you can Clear Failurecodes, resetting Serviceinterval, scanning total you Car or halfdiagnosis and very more. T3 is compatible with the worldwide best Diagnosissoftware: Carsoft 6.14 for BMW Vehicles, Carsoft 7.04 for Mercedes Vehicles, VAG-COM for Vw,Audi,Seat,Skoda Vehicles, BMW EIDABAS / INPA this software is Original from BMW Manufacture!, Audi Tools special for Audi open more Function as normal VAG COM, Renault DDT for Renault, RSM, KJA, Nissan, Dacia Vehicles, Volvo Fault Code for Volvo Vehicles, Opel tech2 and Opel Ab Com. You can make with this Software all Repairs, Service and Failure Clear Codes Self. You know before you go in Vehicle Workshop with this software what is defectively in your Car. Immobilize (login Code) for Additional Modules in your Car and very very more. The in Set include Adaptable for Mercedes, BMW, VW and OBD-II you can use for the Diagnosis (and Mileagecorr.) with this Software, for this Cars where a Dapter is not exist use the Universalpin Cable or Multiplexor (optional in our Onlineshop) The T3 is in First Revision is include with VAG Software, Audi Tools, BMW Carsoft other Module make please Update!

AIRBAG SCANNER & CRASH DATA ERASE

Hier you see 1 from 3 Modules what work in Dos Modus, this Softwaremodule can make Diagnosis in your Airbagsystem or can

TACHOMASTER T3 DIGITAL INTERFACE, RS232 Cable.
ADAPTERSET: OBD-II Cable, MB Adapter, VW Adapter, BMW Adapter,

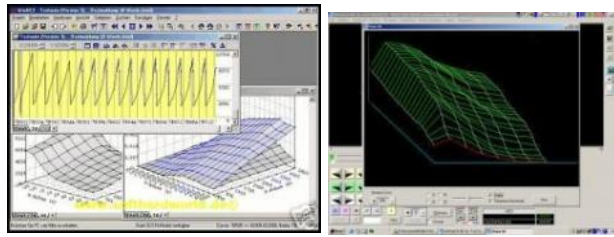

SOFTWARE: Basissoftware with Softwaremodul Tacho V4.0,
 Diagnosssoftware: VW, AUDI, SKODA, BMW (more make update)
 Airbagscannersoftware, BMW Chiptuning, Progssoftware, Immosoft,
 POS-Software, Instructions and a little more....
THE X13 PROGRAMMER MODUL IS INCLUDE IM SET!

PAYMENT / DELIVERY TIME
 - Shipping via DHL, UPS oder Deutsche Post in 9 - 11 Days after Pay!
 - wir Accept all Paymethodes:

resetting the Complete Airbags. After Damaged and avocated the Airbags in Car the ECU from Car write Airbag Crash Data, this data you can Clear with the T3 System. With the Airbag Diagnosis Scanner make a powerful Diagnosis and Scann all problems with the Airbag systems and can erase this! A very good Tool (include in first Revision)

BMW Digital Chiptuning & Editor

Hier See you the BMW Digital Chiptuning Modules, if you have a BMW Car so can you make +35% more Horsepower in your BMW Engine. The Oprating is very very easy, connect easy with OBD-II or BMW Adapter you Car Engine and Transfer the Original Tunin Files in you BMW Engine ECU, Restart and feel the more Power in your Car. If you will later set your Engine in Basepower so you Reprogramming the ECU return. A number of Original Tunningfiles is include and a self make Editor for Tunningfiles so you can make self Chiptuningfiles for BMW. You need not Solderin or remove Modules only what you need is connect the T3 with your BMW Car that is all!

THIS IS OUR COMPATIBLE CAR LIST WITH OUR T3 TACHOMASTER

[Last Update 2007/10/13] - NOT ALL CARS ARE HIER LISTED!!
